RESPONSE TO RESTRICTION REQUIREMENT

COMMISSIONER FOR PATENTS
ALEXANDRIA, VIRGINIA 22313

SIR:

In response to the Restriction Requirement mailed June 7, 2005, Applicants elect, with traverse, Group II: Claims 52-64, drawn to a process for producing an L-amino acid, for further prosecution.

REMARKS

The Examiner has required restriction of the above-identified application as follows:

Group I: Group I: Claims 44-51, drawn to a Coryneform bacterium which expresses a decreased amount of malate dehydrogenase; and

Group II: Claims 52-64, drawn to a process for producing an L-amino acid.

Applicants have elected, with traverse, Group II: Claims 52-64, drawn to a process for producing an L-amino acid, for further prosecution.

The Office has characterized the inventions of Group I and Group II as related as product and process of use. Citing MPEP §806.05(f) the Office suggests that the product as claimed can be used a materially different process. However, the Office has submitted no
